

OIL COMPANY IS  
FORMED TO DRILL  
IN VALLEY FIELDExhaustive Investigation in  
Central New Mexico to Be  
Made at Early Date.

Santa Fe, N. M., July 11.—To drill for oil between Moriarty and Clark, in Torrance county, and in the vicinity of Stanley, Santa Fe county, is the intention of the Maryland-New Mexico Oil and Gas company, which has filed incorporation papers with a paid-up capital of \$200,000, although the capitalization is for \$240,000.

**Indications Promising.**  
It has been known for years that the region between the Hagan coal fields and the Estancia salt lake is rich in oil indications, which are most pronounced, however, near Clark and Moriarty, where, in a number of wells recently dug or drilled, the oil seepage is so strong as to make the water unfit for drinking purposes. Neerer to the coal fields the gas indications are also strong and the more optimistic predict that an oil and gas field similar to that of Indiana and Ohio will be developed. The indications are found on several patented homestead claims and also on the public domain, on which many findings have been made.

**Easterners Incorporated.**  
The incorporators of the new company are: Christopher R. Watten-scheidt, of Baltimore; Charles R. Wilson, of Philadelphia; and James P. Morrison, of Baltimore.

CARLISLE MINE HAS  
MEDICINAL SPRING

Steeple Rock, N. M., July 11.—One of the finest springs of mineral water in the state flows from the Carlisle mine here. The water is particularly adapted to the cure of kidney troubles, according to physicians and in some instances the benefits received by persons who have used it are remarkable. The water is impregnated with sulphur, iron and other mineral properties. It has never been commercialized and is free to all who visit the camp or who live here and desire to drink it. In fact, the residents of this camp prefer the water to any other.

A Hint for  
Coming Maternity

In a little book designed for expectant mothers more complete instruction is given in the use of "Mother's Friend." This is an established and successful method of abdominal massage for the purpose of relieving the strain on ligaments, cords and tendons.

It serves to ease the mind, indirectly has a most beneficial effect upon the nervous system and thousands of women have delighted to tell how they were free of nausea, had no morning sickness and went through the ordeal with most remarkable success. "Mother's Friend" has been growing in popular favor for more than thirty years. In almost every family are grandmothers who used it themselves, their daughters have used it and they certainly must know what a blessing it is when they recommend it to you. Write to-day for the little book.

DOCTOR ORDERS  
RESINOL FOR  
BAD RINGWORM

New York, March 3, 1914.—A rash formed on my forehead and commenced spreading. It was a ringworm. The itching and burning which I endured for four months before I commenced using Resinol Soap and Resinol Ointment were terrible. All my classmates kept away from me in fear that they would catch it. I used every home remedy I could think of, but with no success. My family doctor advised me to use Resinol Soap and Resinol Ointment. The moment I applied them I felt a cooling sensation which was lasting. The relief was quick. I used two jars of Resinol Ointment and Resinol Soap, and was finally rid of the pest. Today there isn't a single mark to show where I had the disease." (Signed) M. G. Rous, 274 Church St.

Resinol Ointment and Resinol Soap are also speedily effective for eczema, pimples, blackheads, dandruff, sores and many forms of skin. Sold by all druggists. For trial free, write to Dept. 27-1, Resinol, Baltimore, Md.—Advertisement.

## It's No Use

to buy an umbrella in a country where no rain ever falls and where the sun never shines hot, neither is it worth your while to see a specialist if you have no disease yourself or have no friends who might be benefited by one.

But if you have a disease which doctors have failed to cure or pronounced incurable, you may be interested in knowing there is yet some hope—Hence you should see us at once.

That we actually cure such diseases as PILES, HYDROCELE, VARICOCELE, RUPTURE, KIDNEY, BLADDER, SKIN AND NERVOUS diseases is a well known fact. To know just how many of these, and how thoroughly we are curing, you will have to call at our office.

Our new Electrical treatment for PILES has wrought wonders. We have so much faith in this remedy that we are absolutely guaranteeing a cure. We cure most any of the serious diseases of men or women.

If you have a disease of any kind come in and see us. It will cost you nothing and we assure you of our conscientious opinion as to the possibilities in your case.

Don't hesitate as delays are both dangerous and unwise.

El Paso, Texas, 206½ West Avenue.

STEEPLE ROCK IS  
AGAIN TO BECOME  
PRODUCING CAMPGeorge G. Utter, Veteran  
Miner, to Rejuvenate the  
Abandoned District.

Steeple Rock, situated in Grant county, on the Arizona line, almost due west of Silver City, and whose mines produced millions in the early days in gold and silver, is again to become a large producer.

This is the statement made by George H. Utter, of Silver City, who spent Friday in El Paso, coming here to purchase supplies for the camp. His aggregate purchases on this trip were over \$100, and he hereafter will make his principal purchases, including orders for much mining machinery, in this city.

**Owens Valuable Groups.**  
Through a recent purchase, Mr. Utter has secured control of five groups of mining properties, embracing 12 mine patents, including the once famous Carlisle mine and the Jim Crow group. The Carlisle mine, 20 years ago, produced over \$4,000,000. It afterwards was sold to an English syndicate, which operated it for several years, but because of mismanagement and metallurgical mistakes is proved too costly to operate and finally was closed down. It remained idle until recently, when Mr. Utter closed a deal for the Steeple Rock properties already mentioned.

**Camp Has Bright Future.**  
According to Mr. Utter, he proposes to make the camp one of the biggest in New Mexico. He declares that the geological formations prove its richness and that with proper management the properties can be made to pay handsome profits. He is going to run the camp on a business basis and in this way hopes to overcome harm done the camp in the past by incompetent and irresponsible parties, which resulted in an ultimate shutdown, lasting many years.

**Reopening Properties.**  
Since taking charge at Steeple Rock several months ago, Mr. Utter has established a commissary, in charge of his son, Livingston Utter, while his other son, George H. Utter, has been made superintendent of the camp. Mr. Utter himself divides his time between Steeple Rock and Silver City. The camp has a postoffice and mail service six days a week. The nearest railroad is at Deming, Ariz., 14 miles distant, where connection is made with the New Mexico and Arizona line. There is a wagon road connecting the camp with the railroad and this has been repaired at a cost of upwards of \$500 by Mr. Utter, so as to be easily traveled by automobile and other vehicles. Over this road ore from the mines will be hauled. At the camp a modern assay office has been established, in charge of an expert assayer. A mess is maintained for men working on the property and conditions are made pleasant for the miners.

**Old Time Mining Man.**  
George H. Utter is a picturesque figure in New Mexico mining circles and is said of him that he has always succeeded where others have failed in the operation of mining camps. This reputation much faith is placed in his statements that he will rejuvenate and make productive again the Steeple Rock camp.

Mr. Utter came to New Mexico in 1884, looking for a place to establish a mining camp. He was successful in the territory and established the state's first credit to mining, \$100,000 worth of capital stock in the New Mexico and Arizona line. He later sold Santa Fe railroad and bonds totaling \$200,000. In 1886 he went to Silver City, where he built the first waterworks system. Later he became actively engaged in mining in southwestern New Mexico.

Until recently he owned the Cleveland mine, an extensive zinc property at Pima county, which he sold to the United States government. He also owned the Pinos Altos, where he acquired control of numerous extensive mining properties at Steeple Rock, which properties he is now developing.

TOMBSTONE MINE  
SALE CONFIRMED

Tombstone, Ariz., July 11.—At a meeting of creditors of the Tombstone Consolidated Mines company, the sale of the Tombstone mines to Walter Douglas, of the district of the United States court, was confirmed. Pending an announcement by Mr. Douglas, it is regarded as likely that long time leases will be given to miners to work the old ground, while Douglas will prospect for new ground to search for silver and other minerals.

It is stated that H. Grob will have charge of the properties as general manager and superintendent.

SHIPS GOOD ORE  
FROM DRAGON MINE

Bisbee, Ariz., July 11.—Frank Ahl is steadily shipping 15 percent copper ore from his mining property in the Dragon mountain district. He is meeting with so much success that he believes he will be justified in enlarging the scope of his operations. The 15 percent ore is the pick of his ore. There is plenty of lower grade left on the dumps for future consideration.

Ahl's present ore is coming from the four foot face of a tunnel now 50 feet in length.

## DARLING OF THE TROPICS

THE entrancing subject of this odd find of the camera is a belle of the Samoan Islands. She is a most beautiful woman, even in the sun-kissed Samoan, along whose pebbly shores are scattered many lustrous examples of the female form divine. So great is her renown throughout the principal island of the Savai that countless swains vie for her favors. Well they may. She is not only beautiful and buxom, but coy and chic, and sweet and suave. The Samoans are a handsome people. They are light brown in color, with regular facial features, and straight and tall, the men averaging five feet ten inches. Their language is called the "Italian of the Pacific."

NEW MEX. PRODUCES  
MUCH FLUORSPAR

Santa Fe, N. M., July 11.—New Mexico is third among the six states that produced fluor spar the past year, according to an official report received by Albert A. Gray of the United States geological survey. The total production last year was 115,550 short tons, valued at \$725,250, compared with 116,545 short tons, valued at \$743,163, produced the year before. Eighty percent of the output is consumed as a flux in basic open hearth steel furnaces. It is used also in blast furnaces, iron foundries, smelters, in the manufacture of glass, of hydrofluoric acid and aluminum.

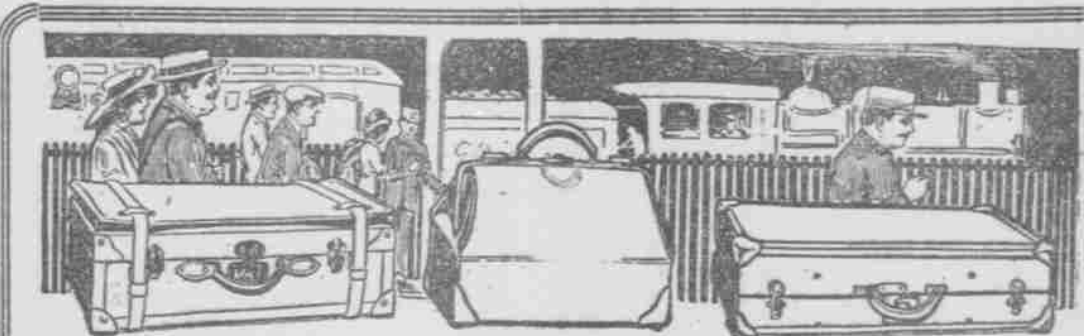

New Mexico is also one of the 22 states that produced gypsum last year. The total production last year was 2,595,588 short tons, valued at \$2,774,312. About 85 percent of the production was used in Portland cement. Despite the vast quantities to be obtained in New Mexico, 447,123 tons of gypsum were imported last year. The principal gypsum plants in New Mexico are at Ancho, Lincoln county, and Ancho, Chaves county.

SUIT AFFECTING ORE  
OF MINE IS DECIDED

Phoenix, Ariz., July 11.—The supreme court has upheld the superior court of Pima county in the case of Albert Steinfeld versus the Omega Copper company. Steinfeld sued for \$25,000, alleging that he owned certain ore on the dump of a mine sold by the company to the Omega company. Both courts held that the ore was not Steinfeld's property and was sold with the mine.

\$350,000 CASH OFFER  
FOR MINE REFUSED

Santa Fe, N. M., July 11.—Judge Sweney, of Oregon, who is in the city on the bankruptcy matter of the Victoria Mining company, says that the new owners of the Bennett-Stapledon mine at Orono have just refused a cash offer of \$350,000 for the property and expect to resume operations on an extensive scale.

You Will Always Catch Your Train and Your Baggage Will Be There on Time if You Phone for

Longwell's Taxicabs and Longwell's  
Baggage Trucks

No delay—no anxious waiting—by the time you are turning away from the phone our men are on the way.

against about 3000 at the same time in the state fund.  
The situation becomes all the more remarkable when it is understood that in the state insurance fund policies are about 8 1/2 percent lower than those of the regular insurance companies. Still another factor which enters into the case is that many big corporations are carrying their own insurance. This is true of two of the largest employers of labor in the state. Probably the largest premium to be paid is that of an industrial corporation which is insured, covering nearly 10,000 workmen with a payroll of \$4,148,000. The annual premium will be about \$122,000.  
While it is yet too early to forecast the working of the new workmen's compensation law, these first figures are being analyzed with interest not only in this city but in various other parts of the country.

DANDRUFF  
FALLING HAIR  
ITCHING SCALP

Coat Collar Covered. Ashamed to Go in Company. Cuticura Soap and Ointment Completely Healed.

F. O. Box 3, Wausau, W. Va.—"I was troubled with dandruff, falling hair and itching scalp for two or three years. It was so bad as to make my collar would be covered so I was ashamed to go in company. It itched so my head was irritated and pimples would come on my scalp. My hair came out badly; it became thin and dry, so dry that it seemed as though there was no life in it.  
"Remedies failed to do me any good. About a year ago I saw the advertisement of Cuticura Soap and Ointment and sent for a sample. After the first treatment I discovered I was getting better. I purchased some Cuticura Soap and Ointment and continued using them until I was completely cured." (Signed) Geo. W. King, Jan. 1, 1914.

**GIVES BOND UPON  
NORTH TIGRE MINE**  
Douglas, Ariz., July 11.—It is reported here that Dick Fowery has bonded his North Tigre mining property, in Sonora, to strong eastern people for a substantial sum. The powers property is said to have many of the characteristics of the noted El Tigre mine. The bond is said to cover a five year period and contained a leasing clause. One of the provisions is said to be the erection of a 20 stamp mill.

Workman's Compensation  
Law Not Yet Understood

New York, July 11.—With the workman's compensation law in operation less than two weeks some very interesting figures have been collected concerning its operation. These seem to indicate that insurance in the state fund is either not coming up to the expected mark or else it has not yet had time to become sufficiently understood. At any rate, a canvass of the various insurance companies last week showed that more than \$5,000 policies had been issued by these companies to cover the employer's liabilities.

## WONDERFUL CURES

Truthful Advertising the Reason of Our Success

During our advertising career we have endeavored at all times to confine ourselves strictly to the truth, give full value for every dollar paid us for our services and cure each patient as quickly as possible, and as a result of doing this kind of work, we have built up the largest and best specialty practice ever known or heard of in this section and our practice is growing by leaps and bounds because the best people of Texas, New Mexico and Arizona are recommending us to their friends. El Paso people are especially our friends and boosters, as evidenced by FOUR OUT-OF-TOWN MEN WEEK BEFORE LAST, WHO INQUIRED OF THE BANKS AND LEADING BUSINESS MEN AS TO WHO WERE THE BEST AND MOST RELIABLE SPECIALISTS IN THE CITY, PLACING THEMSELVES IN OUR HANDS FOR TREATMENT.

## Our Combined Methods Cure Where Others Fail

WE COMBINE THE GREAT CURATIVE POWERS OF ELECTRICITY, LIGHT, HEAT, VIBRATION, SERUMS AND ORGANIC EXTRACTS, with the SCIENTIFIC ADMINISTRATION of CAREFULLY SELECTED, STANDARDIZED MEDICINES which are prepared in our PRIVATE LABORATORY under our PERSONAL SUPERVISION.

## A Visit Will Tell

We invite you to come to our office. We will explain to you our treatment and give you, FREE, a physical examination. If necessary, a microscope and chemical analysis of secretions to determine pathological and bacteriological conditions. In cases we accept, when an X-RAY examination is necessary, we make same free of charge. All ailing people should take advantage of this opportunity to learn their true condition. A permanent cure is what you want.

**INVESTIGATE OUR PROVEN METHODS.** There is no guesswork or experimenting about our Scientific Methods of Treatment. They have stood the severest tests and have not been found wanting. When we say we can cure you, you can depend upon it, for we know from our successful results in thousands of cases just what we can accomplish. Grateful people cured by us are constantly recommending others.

**EQUIPMENT.**—Our offices are the best equipped in the Southwest, occupying ONE-HALF of the second floor of the HAMMETT BLOCK, corner Texas Street and Mesa Avenue, consisting of private Reception Rooms, Consulting Rooms, and several private treatment departments equipped with all the necessary modern Scientific Appliances for making accurate diagnosis and successfully treating the diseases of our specialty.

## Prompt, Safe and Lasting Cures For Reasonable Fees For the Following Ailments of Our Specialty:

Cured in One Day—Uncomplicated Cases of Varicocele, Hydrocele, Hernia  
By Our Painless and Bloodless System of Office Treatment—No Detention From Business or Home.

## CATARRH

Permanently Cured by Our Scientific Method.

Among the many diseases which afflict the human system, NASAL CATARRH is the most prevalent and liable to a greater variety of dangerous complications. In its development, the sources of nasal discharge, hearing and sight suffer more or less, and the throat and lungs often become involved. Catarrh of the throat, ears, bronchial tubes, stomach and intestines requires the same careful attention and treatment. Our wonderfully successful method of treatment, viz., a correct diagnosis and removal of the cause, together with our PINGSTONE TREATMENT, which is a combination of OZONE, HYPEROL and the HIGHEST MEDICINAL CHARACTER, is daily producing some very remarkable cures in the most obstinate cases.

We also cure by the LATEST and BEST METHODS in the shortest time possible for a very REASONABLE FEE, NERVOUSNESS, NERVOUS DECLINE, EPILEPSY, RHEUMATISM, ENLARGED PROSTATE, KIDNEY, BLADDER AND URINARY DISEASES, OBSTRUCTIONS, PILES AND OTHER RECTAL DISEASES, and all special diseases of men and women. If out of town, write fully, describing your symptoms and condition, and receive our opinion free.

**Consultation, Advice and X-Ray Examination Free**  
Office Hours: 9 a. m. to 1 p. m.; 2 p. m. to 7 p. m.; Sundays, 10 to 1. PROGRESSIVE, INTELLIGENT AND INFLUENTIAL PEOPLE CONSULT THE
